

I would like to express my concern for K-love Radio network serving in our area. We receive it on WJLR 91.5 in Seymour Indiana. It is the only station that we receive that has the most positive and encouraging information in our day and time. It effects several hundred thousand listener's in our area with what they need in it programing.

If 91.5 K-love is replaced by an LPFM broadcaster which provides other programing, it would be very disheartening and it would be denying our family the Christian based programs that help keep our family strong! K-love is in the best public interest to provide the service that our community needs and respect.
